

# Nominations Received / Nomination Process;

We are accepting nominations for the 2012 S-590 course  
From March 2010 through November 4, 2011.

S-590 nominees are not required to participate in the S-590 mentoring program but are strongly encouraged to do so. Previous attendees indicate they are better prepared to be successful at the course with mentoring experience.

Nominee's should submit electronic NWCG nomination forms through their training channels, to their Geographic Area Training Representative (GATR), who will prioritize and send on to the S-590 Course Coordinator at NAFRI. Nominations through IQCS will not be accepted, the form does not supply all of the needed information required. Please be sure to document all applicable training obtained and when, and all IQCS qualifications and training positions on your nomination form.

Nominee information will be entered in our NAFRI S-590 database to track progress, missing course prerequisites will be identified in a letter back to the nominee from NAFRI. Documentation of completion of course prerequisites should be sent through training channels to the S-590 Course Coordinator who will update the course database and attach a hard copy to your original nomination form. Any nominees not meeting course prerequisites at the time the pre-course test is mailed (Nov. 2011), will not be sent a test and will be dropped from course attendance.

If you have any questions, please call Tim Peterson, S-590 Course Coordinator at 520-799-8757 or email [tjpeterson @ fs.fed.us](mailto:tjpeterson@fs.fed.us) (remove spaces).
